

FORCED DISPLACEMENT DUE TO  
ARMED CONFLICT  
COLOMBIA 2024

During 2024 at least **338.412** people were displaced as a consequence of the armed conflict.

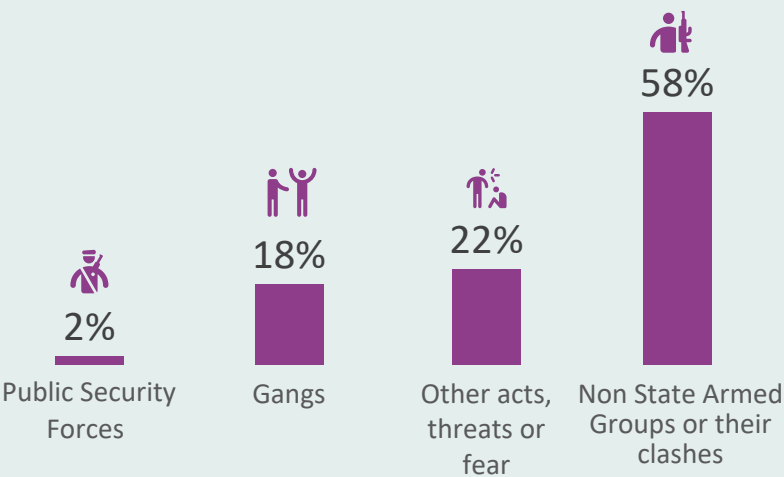

This number corresponds to **2.29%** of the **population aged 15+ with internet access** in Colombia.

The number of internally displaced people -IDPs- in 2024 is **15% higher** than in **2023**

 **47%** of those displaced reported leaving together with 10 or more households, suggesting there were **mass displacement events**

Causes of displacement

**58%** of IDPs left as a consequence of **Non State Armed Groups** or their clashes; **18%** did so because of **gangs**; **22%** due to **threats or fear of violence**.

**47%** of those displaced **have not formally declared** their displacement

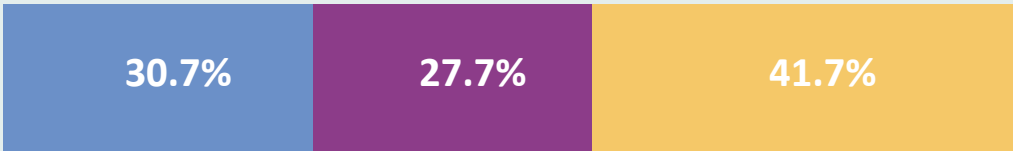

**33%** did not declare due to **fear**.

**68%** of the displaced received **no assistance** from government, NGOs, or friends/family.

The main needs reported by IDPs are **housing, utilities, employment and food**.

**58%** have not returned to their place of origin.

 Have not returned but have settled in the new location

 Have not returned and have not settled in the new location

 Have already returned
